At South Coast Billing Solutions, we understand how stressful it can be to build your practice while trying to stay current with ever-changing insurance laws. That's why we are dedicated to providing our clients with the very latest in reimbursement services available to the healthcare industry today.

Getting our clients reimbursed in a timely manner is our **Number One Goal!** We capture and prepare all the necessary information to complete and transmit your insurance claims, statistical reports and monthly statements... *saving hours of administrative time!*

With over 30 years of experience in the healthcare and insurance industry, our ever-growing client list is testimony to the savings and efficiency we provide our broad range of medical professional specialties who trust South Coast Billing Solutions.

We eliminate overlooked, late, and inaccurate insurance billings by processing claims through a nationally recognized clearinghouse.

We are committed to **providing reimbursements within seven to twenty-one days** on average!

Insurance claims are typically in the payer's computer within 24-hours of transmission!

You don't even have to own a computer! You can fax your superbills or ledger sheets (or we can pick up directly from your office) and we then enter the data into our system.

Claim rejection, as a result of inaccurate coding, is next to impossible because our systems possess on-the-spot editing and audit features.

We submit all claims to Medicare, Medicaid, the Blues and all commercial carriers, eliminating excessive and unnecessary paperwork.

Accurate claims will increase your reimbursement rate and your bottom line.

The Total Practice Management Solution - TPM

The **TPM Solution** is perfect for practices wishing to outsource all of their billing and A/R management activities. We offer an easy transition to the TPM Solution by ensuring complete and accurate billing protocols for timely receipt and posting of payments.

In addition to our dedicated account management staff - who serve as an extension of your practice - the TPM Solution includes secure online access to our data center, 24/7, as well as assuring the success of your billing process by constant supervision and monitoring of accounts receivable.

Management reports - detailing billing and accounts receivable activities - are provided monthly, allowing our clients to keep up-to-date on the financial well-being of their practice.

Maintain Control In-Office. Leave The Rest to Us.

Features:

- Medisoft Network Professional & Office Hours Appointment Scheduling
- Data Center Access for Patient Registration, Charge Entry, and Inquiry Activities
